

Behavioural Support Rounds

Topic:

Tools You Need to Provide Care to Older Adults during COVID-19

Presented by:

Raquel Meyer, Manager, Baycrest Health Sciences, Ontario Centres for Learning, Research & Innovation in Long-Term Care

Lisa Sokoloff, Manager, Training & Simulation, Baycrest Health Sciences Centre for Education
Program Director, Project ECHO Care of the Elderly
Interim Manager, eLearning & Educational Technology

Katelynn Viau, Project Coordinator, North Bay Regional Health Centre

Learning objectives:

1. Increase awareness around the “new ways” of providing care during COVID-19
2. Identify evidence-informed resources to support this care
3. Consider how you can use these resources in your practice and to support both current and new members of your team

How to participate:

- ***You must register in advance for this meeting.*** After registering, you will receive a confirmation email containing information about how to join. [Click here to register](#)
- *If you have any Zoom questions, please contact [Agnes Cheng Tsallis](#)*
- *To be included on the distribution list for these rounds, please contact [Tania Aragona](#)*

Baycrest Behavioural Support Rounds are open to all health professionals and students and provide a learning forum to review leading practices in the assessment and supportive management of challenging responsive behaviours in individuals living with dementia. The purpose is to offer practical approaches to support the work of front-line healthcare providers in caring for persons with responsive behaviours.

Accessible through Zoom, these rounds are co-sponsored by the Baycrest Toronto Central – LHIN Behaviour Support for Seniors Program and the Ontario Centres for Learning, Research and Innovation in Long-Term Care at Baycrest.

Your feedback is valued! Please submit your anonymous evaluation [here](#) after partaking in this event.

Tuesday June 9th 1:00 pm – 2:00 pm
