

Behavioural Support Rounds

September 17 2:00 – 3:00 PM EST *Line opens 10 minutes before

Topic:

Aging and Dementia with Intellectual with Intellectual Developmental Disability:
What People with IDD can Teach Us

Presented by:

Tara Resnick, BAA, RSSWG, Psychogeriatric Resource Consultant, North York
General Hospital

Claire Staniforth, M.Ed., Clinical Lead +45 Clinic, Surrey Place Centre

Mario Tsokas, BSW, RSW, Psychogeriatric Resource Consultant, University Health
Network

Learning objectives:

1. Provide a broad understanding of aging in the IDD population
2. Discuss similarities and differences in the average older adult with dementia and someone with IDD and dementia
3. Considerations for successful interactions

How to participate:

- **You must register in advance for this meeting.** After registering, you will receive a confirmation email containing information about how to join.

- Your feedback is valued. Please submit your anonymous evaluation [here](#)
- If you have any Zoom questions, please contact [Agnes Cheng Tsallis](#)
- To be included on the distribution list for these rounds, please contact [Stacey Guy](#)

These Rounds are open to all health professionals and students and provide a learning forum to review leading practices in the assessment and supportive management of challenging responsive behaviours in individuals living with dementia. The purpose is to offer practical approaches to support the work of front-line healthcare providers in caring for persons with responsive behaviours.

Accessible through Zoom, these Rounds are co-sponsored by the Baycrest Toronto Central – LHIN Behaviour Support for Seniors Program and the Ontario Centres for Learning, Research and Innovation in Long-Term Care at Baycrest.
