

## BEHAVIOURAL SUPPORT ROUNDS

Thursday, January 15<sup>th</sup>, 2026 | 2–3 PM EDT

### PRESENTATION TITLE:

Geriatric Suicide: Understanding the Crisis

### PRESENTERS:

**Daniel Kapustin, MD FRCPC** is a geriatric psychiatry subspecialty resident at the University of Toronto. He has been involved in research focusing on the neuropsychiatric symptoms of dementia, neurostimulation, quantitative neuroimaging, sleep health, and chronic pain. He is an alumni of the University of Toronto's clinician-scientist program. He is the recipient of the Canadian Academy of Geriatric Psychiatry's subspecialty resident award and is an AAGP honors scholar.

### LEARNING OBJECTIVES:

By the end of the presentation, participants will be able to:

- Describe the risk factors for suicide among older adults, as well as protective factors
- Consider issues related to suicide among LTC residents and associated with dementia
- Identify suicide warning signs

### HOW TO PARTICIPATE:

- **Register in advance [here](#).** After registering, you will receive information about joining the webinar
- If you have any questions about these rounds or wish to be included on the distribution list, please contact Bianca Figueira at [BFigueira@baycrest.org](mailto:BFigueira@baycrest.org)
- If you have Zoom Webinar questions, please contact Agnes Cheng Tsallis at [achengtsallis@baycrest.org](mailto:achengtsallis@baycrest.org)

### HOW TO OBTAIN A CERTIFICATE OF ATTENDANCE:

After having attended, complete the evaluation survey and enter an email address to request your certificate.

These sessions are open to all healthcare professionals and students to provide a learning forum to review leading practices in assessing and managing personal expressions, as demonstrated by individuals who live with dementia.

*These Rounds are co-sponsored by the Behavioural Support for Seniors Program, and the Ontario Centres for Learning, Research and Innovation in Long-Term Care at Baycrest*
