

Behavioural Support Rounds

June 23 2022 2:00 – 3:00 PM EDT

Title:

Using VR as a non-pharmacological intervention on a behavioural support unit

Presenters:

Mara Swartz – Baycrest Health Sciences
Grace Chung - Baycrest Health Sciences

Learning Objectives:

1. Understand the benefits of VR in various use cases
2. Understand how VR can be introduced into a behavioral support unit
3. Differentiate between successful and unsuccessful VR interventions

How to participate:

- [Click here to register](#). You must register in advance for this meeting. After registering, you will receive information about joining the webinar.
- If you have any Zoom Webinar questions, please contact [Agnes Cheng Tsallis](#)
- To be included on the distribution list for these rounds, please contact [Ontario CLRI at Baycrest](#)

How to obtain a certificate of attendance

- Complete the evaluation survey and enter in an email address to send the certificate to.
- The survey will be emailed to attendees following the Rounds.

These sessions are open to all healthcare professionals and students to provide a learning forum to review leading practices in assessing and managing personal expressions, as demonstrated by individuals who live with dementia.

These Rounds are co-sponsored by the Behavioural Support for Seniors Program, and the Ontario Centres for Learning, Research and Innovation in Long-Term Care at Baycrest.
